

Kitty Wells, I'll Be Your Stepping Stone

I'll be your stepping stone while you keep stepping on from girl to girl
I'll try to keep the pace just looking for a place in your heart within

You told me once just how my kisses thrilled you
Since that time there's been many lips you've known
Now there you go again in love with someone new
So I'll just wait till you need your stepping stone
I'll be your stepping stone...

[steel]

I'll be your stepping stone...
