

Kitty Wells, I'm Counting On You

All the words that I let you know still could not say
How much I need you so in every way
I hope you will guide me as only you can do
Hold my hands down beside me I'm counting on you
I'm counting on you dear from the dawn on each day
To always come through dear in your kind lovin' way
If you knew just how deeply I feel things you do
Then you know how completely I'm counting on you
