

Kitty Wells, Touch And Go Heart

Touch and go - that's how your love is
First your mine, and then we're apart
Even though I know what your game is
I still cling to your touch and go heart

You only want my company
When you are feeling blue
Just when I think you care a little
There's someone new

Though I know how hopeless my chance is
I'm just a slave for your touch and go heart
