

Kitty Wells, Unloved Unwanted

Unloved unwanted I've never been so blue

I know that I should leave but I don't want to

Unloved unwanted is the life I live with you

I know that I should leave but I don't want to

I have your name I wear your ring I remember when our love was real

She's in your arms she has your heart are you contented with kisses that you steal

Unloved unwanted I've never been so blue

I know that I should leave but I don't want to

She's in your arms...
