

Kitty Wells, Watch It Heart Don't Fall

Come here heart and let me talk to you before you up and fall for someone new
It's alright to go on out and have yourself a ball but watch it heart don't fall
It's a long way for one to drop it's not the fall that hurts it's that sudden stop
You've got fooled once before as you recall so watch it heart don't fall
[steel]

If you meet somebody who says they love you
Make sure the things they're telling you heart is true
You can trust one but you can't trust them all so watch it heart don't fall
It's a long way for one to drop...
So watch it heart don't fall
