

# Kitty Wells, You Left Your Mark On Me

[ Kitty Wells ]

You left your mark on me beggin' on my heart to stay

Time by no one will erase it away

In public I wear a smile hold my head up high inside I'm so lonesome alone in a crowd

From morning till night from night until the dawn

I'll wake up cryin' because you're gone

Though we are far apart still I can't be free

There's no use denying you left your mark on me

[ steel ]

I try but it's no use to drag your mem'ries away you're in my heart and bear to stay

I'll keep it to myself no one else will know the worst stars in life ain't never show

From morning till night...
