

# Kla Project, Feel Something

(KLa Project)

I feel something that never realized  
In the middle of the night  
When I looked back to my past life  
Fully, great full memory  
There was a little caught light  
Shinning on my path clear all of my sight  
So souldn't get any mistakes  
Choosing right step which I had to take  
I feel something that never realized  
When looked around of me  
Many happens need to be recognized  
Show us to a sign  
People sharing each other  
Loving, caring and helping in every way  
Fight everything's because of Him  
I just want to pray  
My everyone will do the same
