Klangkarussell, Netzwerk (Falls Like Rain)

I look up to the sky above Full of sweet release From the days that I waste Trying to fight for space Well I know what my heart believes

I won't run when the storm clouds come I won't turn away

Cause if your eye's on the ground
When the night comes down
You only see the stars when they fall like rain
Like rain
Cause if your eye's on the ground
When the night comes down
You only see the stars when they fall like rain

As we wait for the light to fade I keep asking why All those stones that we threw That the shadows grow And close every road we try

I won't run when the storm clouds come I won't turn away

Cause if your eye's on the ground When the night comes down You only see the stars when they fall like rain Like rain Cause if your eye's on the ground When the night comes down You only see the stars when they fall like rain

[Vocal Solo]

I look up at the sky above Full of sweet release From the dreams that I chase Trying to find some face In a world that I don't believe, no

I won't run when the storm clouds come I won't turn away

Cause if your eye's on the ground
When the night comes down
You only see the stars when they fall like rain
Like rain
Cause if your eye's on the ground
When the night comes down
You only see the stars when they fall like rain
Like rain, yeah
You only see the stars when they fall like rain
