

# Klara, The cliff

I would jump into water if I could  
From my house, from my house, on a cliff  
I would sleep on my hill if I could  
Near your house, near your house, on a cliff

Oh, please take me higher, take me your own way  
It's time, now I need it, I need to let you in  
Going down, going nowhere, never ve been so dark  
Please get, get away with me now  
Please get, get away with me now

We'll be living in a house on a cliff  
With a tower, with a tower in the sky  
You can come  
If you would ever want  
Drink my tea, drink my tea, drink my tea

Oh, please take me higher, take me your own way  
It's time, now I need it, I need to let you in  
Going down, going nowhere, never ve been dark  
Please get, get away with me now  
Please get, get away with me now
