

Klaxons, It's Not Over Yet

I'll live for you
I'd die for you
Do what you want me to
I'll cry for you
My tears will show
That I can't let you go

It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet
Cos I can see through you
It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet

Don't let me down
Don't make a sound
Don't throw it all away
Remember me
So tenderly
Don't let it slip away

It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet
Cos I can see through you
It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet

It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet
Cos I can see through you
It's not over, not over, not over, not over yet
You still want me, don't you
It's not over, not over, not over, not over yet
