

# KMFDM, No Peace

Without rhyme, without reason  
Blabbering ??? treason  
A place for the people and hands of the fools  
How much longer will ignorance rule?

We'll get it all, we'll get it all  
You have to know that we'll have it all

So, face it the place is a mess  
No, no good don't act like you should  
We, we're doomed, right from the start  
No, no don't the choice is too hard

Now it's your turn to fight  
Armed and ready, famous and rich  
Now it's your turn to fight  
The time has come to flip the switch  
Now it's your turn to fight  
So what do you know and how does it feel?  
Now it's your turn to fight  
No peace without justice and that's for real.

Reserve, a much better life  
Control a harmless obsession  
We, ???  
You, your days are numbered you bet
