

Koffin Kats, Above Me, Beyond You

I have seen the place
Where I will meet me end
I don't know the faces tht will watch
But they won't understand

You don't know me
And you won't have to cry
It's not how it needs to be
But then again, that's life

Above me, Beyond you
Perfection knew it's boundaries
There's nothing I could do
To change the course of this
I'm slipping away no
I feel the body reject
I earned this, they're losing
It's time to say goodbye

Reach out your hand
But I was never there
The eyes do play tricks
When love is so sincere

Call out my name
But noone ever came
Maybe in a book you read
Forgotten through the days

Above me, Beyond you
Perfection knew it's boundaries
There's nothing I could do
To change the course of this
I'm slipping away no
I feel the body reject
I earned this, they're losing
It's time to say goodbye

I'll say goodbye
If only for awhile
The medication
Only works so long

If I do return
I will not be so old
A little stronger
And ready to tear you apart
