[Kool] You wanna do dirt, keep it in the shade wit y'all

[Jinx] You wanna act up, pull out guns and spray it at y'all!

[Kool G Rap]

This one goes out to my Queens thugs, that steam slugs

My real killers out on the corner that's seen blood

My wild niggaz schemin with snubs, fiendin for grub

Eatin off the streets, triple-beamin the drugs

The ones that put a red beam in your mug

The ones that bug and be in the clubs

and hide whips, gleamin with dubs

This one goes out to my peoples

that hit the hot blocks to cop the diesel

in back of the spots but chop on the lethal

Then pop goes the weasel

If niggaz want it, then pop goes the eagles

We can draw guns and rock like The Beatles

Drop pots of evil, ghetto D with shots from a needle

Lay you down with shots that are cerebral

Before rap, my click was hot as Segal, now we clock legal

Hop like Kenieval, pass the cops in our Regals

Above blowin like diplomats, me and my click of cats

Duck when we spit the gat or get your shit twisted back

[Chorus]

[Jinx Da Juvy]

That young fella straight from the slums and that's that

Got kicked out of school cause I used to carry guns in my knapsack

Been a serious dude, never the one to laugh at

So play crazy and this 380'll twist your cap back

Before rap, I played the slums where the cash at

Duckin the boys in blue, with jumps in asscrack

Now I switched over, but still tote the big toaster

for niggaz schemin so I'm fiendin to bend your wig over

You might catch the kid herbed out, bent over

Without a license, gettin brain in a tint Rover

But not for nuttin, a frontin dude get popped for frontin

Y'all the type to snitch when a cop's comin

But that don't stop nuttin cause trust me the cop's duckin

A badge don't mean shit, when the glocks is gunnin

And I don't think the pig's tryin to get, popped in the stomach

Or be worse, layin with they wig hotter than the oven

[Chorus]

[Kool G Rap]

G Rap as real as it gets, peel with the fifth

Bust down a mill' with the click, ill with the chicks

Wheelin the 6 to cribs on hills in the sticks

Metal we pack is heavy you can feel when it spit  
Used ta, reel in the chips, slangin krills on the strip  
Now we, spillin the Crist', niggaz still with the hits  
Won't stop until I cop a half-a-mill' for the wrist  
Rule with a iron fist but still in the midst  
G Rap and his squad of guerillas, carve your grill up  
Harsh killer hold the hammer like 20 bar villains  
Spit flames like Godzilla, menage-a-trois in large villas  
Pack the trey-pound God pealer  
It's a hard thriller mob chiller  
Decide your fate like a Tarot card dealer  
Y'all niggaz is yard squealers; play around and be a scar feeler  
A shot down man on the tar feeler chick witchu the gem star spiller

[Chorus]

[Kool G Rap]

What? (G Rap nigga) Black {\*censored\*} fam baby, uhh  
(Jinx Da Juvy) The new milleny niggaz, knahmean? 2000 shit  
Here to rule shit  
All y'all weak niggaz fall back  
Brrrap! Brrrap! Get the fuck out of here
