

Korn, Disconnect

I cannot simply convey
The things I keep hidden inside
It wants to make me beg
To let loose the lesson prescribed
Lies are truth refined
Darkest lights hidden from behind

The pain I have I can't conceal
The hurt inside is dark so real
The feeling is divine
This duality aligns

I could never let go
The concept of dark and light
One tries to pull me in
One gives me strenght to fight
Lies are truth refined
Darkest lights hidden from behind

The pain I have I can't conceal
The hurt inside is dark so real
The feeling is divine
This duality aligns

Selfishness
Interjects
It's a start
Forgiveness
Common sense
Still awaits
What we feel is all disconnect

Selfishness

What we feel is all disconnect
Disconnect
Disconnect

The pain I have I can't conceal
The hurt inside is dark so real
