

# Korn, Take Me

You bumped into me  
I was down and you took me up past the ceiling  
You are the disease  
I'm the remedy that numbs all your feelings  
You come looking for me  
I'm the only one that keeps you sound  
I bring you down to your knees  
Coz I'm the only that makes you, you, you, you!

Take me  
Please take me  
It's the only way  
Please take me

You came after me  
I'm not worth anything if I'm not inside you  
Only you can truly see  
All the hell you put me through when the fish is feeding  
Can't really make a break  
Coz every time I run away, you hunt me down  
You can't ever be me  
Coz every time I turn around it's you, you, you,  
It's you

Take me  
Please take me  
It's the only way  
Please take me

I feel it dulling, I feel it helping me  
It's taking everything all up away from me  
I feel it ripping, I feel it scarring me  
This shit has made me cry to all reality  
I feel it calling /2x  
It's calling me

Go!  
(Away, away)  
/2x

Take me  
Please take me  
It's the only way  
Please take me  
/2x
