

Korn, Y'all Wanna Single (Edited Version)

Y'all want a single say stop that
Stop that, Stop that
Y'all want a single say stop that
Stop that, Stop that
Y'all want a single say stop that
Stop that, Stop that
Y'all want a single say stop that
Boom boom boom boom
Boom boom boom boom

What's going on today?
Today
We gotta break away
Away
We got a problem and I think it's going to make us go down
They think we're all the same
The same
And always we're to blame
To blame
For ish I think is lame
Is lame
It's time to start the game
The game
I think it's time to pay for everything you made me say

Y'all want a single say stop that, stop that
Stop that, Stop that, Stop that [x4]

What's going on today?
Today
Why must it be this way?
This way
We're going nowhere and we're still knocking the need to bow down
They think we're all the same
The same
And always we're to blame
To blame
For ish I think is lame
Is lame
It's time to start the game
The game
I think it's time to pay for everything you made me say

Y'all want a single say stop that, stop that
Stop that, Stop that, Stop that [x4]

We are the ones breaking you down
We are the hope to drown out your sounds
All Across the world you've fed what you found
All Across the world you're breaking you down

Y'all want a single say stop that
Stop that, Stop all that! [x4]
Stop!

Y'all want a single say stop that
Stop that, Stop that
Wanna single say stop that
Stop that, Stop that

Y'all want a single say stop that stop that
Stop that, Stop that, Stop that. [x4]
