

# Kosheen, Always The Same

1. It's like a pattern deep ingrained  
It's like a cycle but it's always the same  
Curly headed baby running wild  
Woman that you see here now  
She is still that same child

Chorus:

Aha always the same  
I never change  
Always the same  
Always the same  
I know my name  
I never change  
Always the same

Always the same

2. I've seen that look before  
You can't work me out  
Don't try and understand  
You'll always carry that doubt  
You either love me or leave me  
But I'll never be tamed  
I'm a mystery to myself  
But I'm always the same

Chorus

(It's like a cycle but it's always the same)  
(It's like a cycle but it's always the same)
