

Kosheen, Always The Same

1. It's like a pattern deep ingrained
It's like a cycle but it's always the same
Curly headed baby running wild
Woman that you see here now
She is still that same child

Chorus:

Aha always the same
I never change
Always the same
Always the same
I know my name
I never change
Always the same

Always the same

2. I've seen that look before
You can't work me out
Don't try and understand
You'll always carry that doubt
You either love me or leave me
But I'll never be tamed
I'm a mystery to myself
But I'm always the same

Chorus

(It's like a cycle but it's always the same)
(It's like a cycle but it's always the same)

Chorus
