

Kosheen, Marching Orders

If you're out there laughing
Fishbowl culture
You're fighting for water
If you're out there laughing
In our direction
We see our failure

Get on your precious rocket
I think you better go
Traded your empty pockets
I think you better go
Your foolish plan won't save you
I think you better go
Your stupid fans won't save you
I think you better go

If you're out there laughing

Fishbowl culture
You're fighting for water
If you're out there laughing
In our direction
We see our failure

Get on your precious rocket
I think you better go
Traded your empty pockets
I think you better go
Your foolish plan won't save you
I think you better go
Your stupid fans won't save you
I think you better go
I think you better go
I think you better go
