

Kosheen, Playing Games

This time it's final
It's over, I'm sorry
But I won't play this game
With you no more
We've been fighting over nothing
We've been trying for a long time
I won't play this game
With you no more, no more, no more

Gently, gently, catch your monkey
I believed you when you said forever
Is forever
Forever

You expect me to respect you
Love you and protect you
In joy and pain
Your love I got to have it full time
If you want a piece of my mind
I'm not playing games

All that we've worked for
All we have gained
All that we have suffered
Playing Games

Gently, gently, catch your monkey
I believed you when you said forever
Is forever
Forever

All that we have gained
All that we have worked for
This time it's final
It's over I'm sorry
