

# Kosheen, Wasting My Time

That's what he said  
Clever when you talk  
Pretty when you sleep  
Started seeing red  
Give it all away  
Too precious to keep  
Don't make any doubt  
That you can undo  
Don't be surprised  
If I don't talk to you

chorus:

Don't be wasting our time  
You've been lying before  
You've been trying to get out  
We've been climbing walls

Tearing it out  
I'm under your skin  
Bows in your eyes  
Murder on gin  
You hide inside  
But I'm coming in  
It isn't over if we never begin

chorus

Don't be wasting my time  
Don't be wasting my time  
Wasting my time  
Wasting my time

Stop being deined  
What's divinely yours  
Let your hands untie  
And finally walk  
You can stand by my side  
I'll cover the course  
The winner's gain  
And the loser's loss
