

Kosheen, Wish

Pretty Girl
With heels on legs
If I had your brain instead
Then I probably wouldn't feel a thing
What do you think your Daddy said
If he ever really cared
Get your lipstick on
Get in the ring

Don't wish it all away

Tuck me up with me on one
It's over just for fun
Ain't we the lucky ones
Tuck me up with me on one
Ain't we the lucky ones
Throw me over
Waste me just for fun

In the street there's a heavy sound
All the people moving underground
If you're quiet you can hear them breathe
Feel it shake beneath your feet
Drop the rhythm
Cut the beat
Time is moving in

Don't wish it all away

Tuck me up with me on one
It's over just for fun
Ain't we the lucky ones
Tuck me up with me on one
Ain't we the lucky ones
Throw me over
Waste me just for fun

Don't wish it all away

Tuck me up with me on one
It's over just for fun
Ain't we the lucky ones
Tuck me up with me on one
Ain't we the lucky ones
Throw me over
Waste me just for fun

Don't wish it all away
