</lyrics>

Tears of happiness ride along the wind the
pleasant aroma accompanies its warmth
Now in this bounded world from here to the horizon
What do you find in those eyes that are hiding your emotions

An unseen star journeys to heaven's sky with timidity
Unheard and unnoticed, flickering quietly

Now you indulge in your colourful past
Even in the shaky morning, even in the cold night you must be
responsible for what you say

Being forgiven for empty tears in this way I want to be protected
Now the thin needle of time is early by an hour
Maybe the sun is rising above us

The square sky seems to be unbreakable this time around
Spreading an outstretched hand that really swims in this small world

Only now it doesn't stop flowing
Even though knowing its weakness I only
wanted to feel its heat

To cry over your dreams becoming true is really childish and immature
Let's fill this sudden small space with our words
Inside this plastic world the sun draws a circle

Because of having these beckoning tears before they flow even
more let's say goodbye right here

There's no need for excuses I shrug my shoulders
Maybe the sun has risen in those slowly-opening eyes
