== English Translation ==

We sought pleasantly loud sky
In a flock of white birds taking off
Ask where the dream we ride is going
Thrown into the wind, even if I wander in an unforeseen maze
Let's go searching, chase flowing clouds

For example, From now on, even if the way we go ends
(The boundless sky...)
We will make an endless map of a continuous land
(Wing my Way...)
I'm not afraid of making mistakes and such

The endless story starting from here draws a parabola
Continuing on over the horizon
No matter what the painful things that happen
After the tears, surely
Someone's journey will become the way of hope

Solve a puzzle that has no solution
Climb a single flight of stairs
Gazing a little high, what is it you see?
As proud as a when a little bird first flies from a branch
While shaking and swaying, we'll fly

For example, From now on, even if the land ends there
(Reach for the shine...)

Spread your wings, aim for the edge of the sky
(Wing my Way...)
Although determining the end is simple

The endless story starting from here flickers inside a prism
Move towards the shining prismatic light
Don't be afraid of things that are change
And of the long way around
It is never for naught, something will bloom from it

(You can do just as you please...)
For example, from now on, even if the clouds cover the sky
(The boundless sky...)
Take my hand, and we'll make a sky-blue road
(Wing my Way
Don't choose to stop now

The endless story starting from here draws a parabola
Continuing on over the horizon
No matter what the painful things that happen
After the tears, surely
Someone's journey will become the way of hope
