

# Kottonmouth Kings, Positive Vibes

We need some positive vibes  
For these rainy days  
Let the sun come out  
Keep push these clouds away

We need some positive vibes  
Life's for fun so go and play  
Let the sunlight in  
Brighten up your day

Let the vibes flow like an ocean breeze  
Mama always told me there'd be days like these  
Keep your head right just do as you please  
Don't ever interfere with an evil man's scheme  
Keep your heart pure conceive your own dreams  
Respect your fellow man, the earth and the trees  
The air that we breathe to the highest mountain peak  
Speak truth from your soul to your mouth when you speak

Don't mean to get down, messin' with others  
Stressin' your brother, it's time to cover  
Time to choose another path you see  
Cuz the road most traveled's negativity  
Put your fists down, throw your hands in the air  
Respect yourself be somebody who cares  
When life gets you down, don't feel abused  
Keep a positive view, unto yourself be true

We need some positive vibes  
For these rainy days  
Let the sun come out  
Keep push these clouds away

We need some positive vibes  
Life's for fun so go and play  
Let the sunlight in  
Brighten up your day

Yo  
Everyday's a new adventure  
You got to keep it you got  
Livin' life in the studio  
Busta rhyme to my socks  
I got to keep my head up  
And always do what I feel  
Avoidin' all the evil  
Got to just keepin' it real  
All these situations I keep hearin about  
People dyin in planes or buildings crumbling down  
This world goes round, for no apparent reason  
People robbin' and theivin' just to feel good for the evening  
We're offerin' everybody's peace and love  
Throw your drinks in the sky, raise your hands up above  
Get your head out the gutter, and be respectful  
We need some positive vibes for these rainy days so let it go  
Don't ever get it twisted when I'm on this track  
D-Loc the kinda kid that be kickin it in the back at the class  
Everyday I was high, goin to school in '95  
Easy that's how it rhymes

We need some positive vibes  
For these rainy days  
Let the sun come out  
Keep push these clouds away

We need some positive vibes  
Life's for fun so go and play  
Let the sunlight in  
Brighten up your day

It's time to leave this rat race  
Trapped in Babylon  
Keep my head straight  
Keep my family moving on  
Find my own place  
create my own space  
Detach my whole scene from this wicked rat race  
These two-faced friends  
These snakes in the grass  
Daddy always told me there'd be men like that  
So watch your own back  
Keep your eye on your stack  
Don't ever write a check that that ass can't cash

We need some positive vibes  
For these rainy days  
Let the sun come out  
Keep push these clouds away

We need some positive vibes  
Life's for fun so go and play  
Let the sunlight in  
Brighten up your day

We need some positive vibes  
(Keep on reachin' for)  
For these rainy days  
(Keep on hopin' for)  
Let the sun come out  
(What we need is all we have is)  
Keep push these clouds away  
(Positive vibes)

We need some positive vibes  
(What more could we send to you)  
Life's for fun so go and play  
(What more could we send to you)  
Let the sunlight in  
(What we need is all we have is)  
Brighten up your day  
(Positive vibes)
