

Koufax, Break It Off

Stop taking advice from your family
They've never been right on anything
The funeral's planned for your freedom and property
It's all being booked for your new life
It's all in time
Break it off before she destroys everything
Call it off, you've got to ignore "destiny";
Break it off
Before it's too late tonight
For all of the nights she lost track of time
The other man still in her eyes
Believing the lies in her all fiction alibi
It's gonna be nice not to rely
It's all in time
Break it off before she destroys everything
Call it off, you've got to ignore "destiny";
Break it off
Before it's too late, you must decide
Before it's too late...
Break it off before she takes you for everything
Call it off, ignore this makeshift destiny
Break it off
