

Koyote, Together

Forget it, forget everything
Dont cry for just that one love
Why are you so hurting over something that just passes
by once?
oh~ smile, smile bigger
Now try to comfortably enjoy yourself
Experience this beautiful world in your lifetime
An easily formed love can easily leave me
But throw away your past pains
Sing all together~
Shout to the high skies and to the ends of the world
Shout as much as you shed your tears
Dance all forever~
Forget everything and fill yourself with joy
Now there is no more sadness
Just believe in yourself
Day by day its always the same
I was becoming exhausted in those days
I didnt have any happiness
And I really hated myself for that
I promised myself that I would never love again
But I won't fall down and cry anymore
For a happy tomorrow,
Sing all together~
Shout to the high skies and to the ends of the world
Shout as much as you shed your tears
Dance all forever~
Forget everything and fill yourself with joy
Now there is no more sadness
Just believe in yourself
Forget everything just for today
There is no more pain to me
Its my world now
