

# Kreator, Soul Eraser

From the sky it came to bring  
The seeds of slavery  
For a mind insane an armageddon fantasy  
Cure religion for the weak foundation of all laws  
Redefines philosophy a tyranny from above

Soul Eraser - penetrates your dying mind  
Soul Eraser - takes your empty soul tonight

Immortal imperator from a planet far away  
A consciousnessless dictator hierarchy in mortal planes  
A universal tyrant no emotions no regrets  
Phantasmagoric dream disguise for a silent death

The sacred shrine is poisoned  
A treasure for the dead  
For thousand years a secret  
In the dark great pyramid  
See the gods descending  
See our people die  
Mighty kings of shadows  
Cannot be destroyed

Mighty god-king save us from this scorn under the sun  
Lead us to salvation as you say things will be done  
All those years of suffering starvation and demise  
End with the enthronement of the savior from the skies

Soul Eraser - penetrates your dying mind  
Soul Eraser - takes your empty soul tonight

Immortal imperator from a planet far away  
A consciousnessless dictator hierarchy in mortal planes  
A universal tyrant no emotions no regrets  
Phantasmagoric dream disguise for a silent death
