

Kreator, Tormentor

Riding in darkness through the hell of the night
Give all your torment to the heaven's might
In the name of satan spread all your fear
You feel his anger you know he's near

Casting a spell
Lord of all hells
Ripping the angels
God has fell

Tormentor!

Baphomet's calling death is now real
Helldogs and demons waiting to kill
Pentagrams shining Luzifer smiles
Fucking the virgin rip out her eyes

Drinking the blood
Fear no god
Now you are dead
Your flesh is dot rot

Tormentor!
