

Krezip, You can stay

Come on let yourself slide
Come on take it tonight
You made it real for now but
Make your day if I can
I give it all cause I am
You made it real
You can say
You can say
Just say what you want
Cause we cant pretend no more
There we go
I CAN'T hide my self away inside my FEARS
SO now let it begin
Take it all if I win
You made it real for now but
Time to justify my
Time to rectify my
You made it real
You can say
You can say
Just say what you want
Cause we cant pretend no more
There we go
I CAN'T hide myself away inside my FEARS (2X)
So let it come
And make me sacrifice some more
I know youre watching me real close
Cause I'VE come pretty far
I TRIED to run but
IT kicked me back just where it could
Got sick of all that comes before
Though I'VE come quit far
Come on let yourself slide
Come on make it feel right
You made it real
You can say (ay-ay-ay)
You can say
Just say what you want
Cause we cant pretend no more
There we go
I CAN'T hide myself away just inside my FEARS
You can say
Just say what you want
Cause we cant pretend no more
There we go
I CAN'T hide myself away inside my FEARS
Inside my, NO
Inside my
I CAN'T hide myself away inside my FEARS
