

Krispies, Lover

Summerday, summer feeling
On my way, you got me wheelin'
So strange, it seems that we've been running away
You think I've got it bad
Bur don't you know
I'm oh so glad
'Cause baby, I'm on my way to the city
Summerday and the world's in need for a lover
You know unsentimental lover
I've got cold one, you've got water
So sad, you never got me running with you
