## Kristin Hersh, Your Ghost

If I walk down this hallway Tonight it's too quiet So I pad through the dark And call you on the phone Push your old numbers And let your house ring 'Till I wake your ghost

Let him walk down your hallway It's not this quiet Slide down your receiver Stand across the wire Follow my number Slide into my hand

It's the blaze across my nightgown It's the phone's ring

Chorus:

I think last night you were driving circles around me (x3)

I can't drink this coffee
Till I put you in my closet
Let him shoot me down
Let him call me off
I take it from his whisper
You're not that tough

It's the blaze across my nightgown It's the phone's ring

## Chorus:

You were in my dream (I think last night) You were driving circles around me (x5)
