

Kristina Train, Dream Of Me

Dream of me baby
In a place, far away from here
And dream of we made it
Now we see, what is crystal clear

'Cause this life, this lonely, lonely life
Always caught on winter's edge
Cuts you like a knife
I know that there's somewhere
Everything is bright
And one day I'll call
That life I dream of, this life

Dream of me baby,
In a land far across the seas
The darkness has faded
Dark old light is falling through the leaves

'Cause this life, this lonely, lonely life
Always caught beneath the wheels
Broken by the night
I know that there's somewhere
Everything is bright
And one day I'll call
That life I dream of, this life

'Cause this life, this lonely, lonely life
Is cold as snow and hard as stone
Darker than the light
I know that there's somewhere
Everything is bright
And one day I'll call
That life I dream of, this life
