

# Kristine W., Be Alright

Ooooh

I said you know it's gonna be (gonna be)

Ooooh

I said you know it's gonna be alright this time (time)

Alright it's gonna be this time

Alright (alright) this time

Be be (alright) it's gonna be this time

Be be (alright, alright) this time

Be be (alright) it's gonna be this time

Be be (alright, alright) this time

Be be (alright, alright) this time

Be be (alright, alright) this time

I'm on your side (side)

I'm on your side (side)

I'm on your side (side)

I'm on your side (side)

And I know that sometimes yes I care too much but I can not deny

All the weight of the time that I feel when you're gone but I know that I find

Eating and breathing and thinking of you is what keeps me alive

Eating and breathing and thinking of you is what keeps me alive

I know it's gonna be alright this time

I know it's gonna be alright this time

I'm on your side (side)

And I know that sometimes yes I care too much but I can not deny

All the weight of the time that I feel when you're gone but I know that I find

Eating and breathing and thinking of you is what keeps me alive

Eating and breathing and thinking of you is what keeps me alive

And I know that sometimes yes I care too much but I can not deny

All the weight of the time that I feel when you're gone but I know that I find

Eating and breathing and thinking of you is what keeps me alive

Eating and breathing and thinking of you is what keeps me alive

Alright it's gonna be this time

Alright (alright) this time

Be be (alright) it's gonna be this time

Be be (alright, alright) this time

Be be (alright) it's gonna be

Be be (alright, alright) this time

Be be (alright) it's gonna be this time

Be be (alright, alright) this time
