

Kristine W., I'll Be Your Light

Here
I want you closer
Don't ever let go
I need you to know that I'm here
Don't worry
No sir, you won't see me run
'Cause I'm far from done
I'm gonna give you all the lovin' your heart needs
When you're standing on the edge I'll reach out so you can see

And I'll be your light
I'm shining in the darkest night
I'll take you to a higher place burnin' so bright
I'll be the song that moves you when all hope is gone
I'll give you strength to carry on
I'm burnin' so bright
I'll be your light

I'll be your light (repeat)

Yes
If the clouds come to cover your sky
Just know that I will stand by
I'll be there
Yes through the hardest of times
Just seek and you will find
That when the world turns cold and almost gray
I can be the one to hold you and show you the way

And I'll be your light
I'm shining in the darkest night
I'll take you to a higher place burnin' so bright
I'll be the song that moves you when all hope is gone
That gives you the strength to carry on
I'm burnin' so bright
I'll be your light

Burnin' bright
Burnin' bright
Burnin' bright

Burnin' bright so you'll see
I can be who you need
Give you faith to believe

And I'll be your light
I'm shining in the darkest night
I'll take you to a higher place burnin' so bright
I'll be the song that moves you when all hope is gone
Gives you strength to carry on
Burnin so bright
I'll be your light

I'll be the light
Gives you strength to carry on
Burnin' so bright
