

# Krokus, Long Way From Home

In my mind I can see  
All the childhood reflections of me  
Walkin' through the memory of long ago  
So long ago...

We were young, we free  
There was nothin' that we couldn't be  
Searchin' for adventure  
Lookin' for love...

Here as I sit alone in the dark  
million miles away  
Wishin' that I could go back to the start  
Knowin' that time won't bring back those days

I'm a long way from home  
And I feel so all alone...

Now my world's far away  
And I'm travellin' out into space  
To the edge of the universe  
It's where I must go...where I will go...

Through the stars, sailin' free  
With the memory of what used to be  
Searchin' for adventure  
Lookin' for love...

Here as I sit alone in the dark  
million light years away  
Wishin' that I could go back to the start  
Knowin' that time won't bring back those days

I'm a long way from home  
And I feel so all alone...  
I'm a long way from home  
And I feel so all alone...

Solo

Here as I sit alone in the dark  
million miles away  
Wishin' that I could go back to the start  
Knowin' that time won't bring back those days

I'm a long way from home  
And I feel so all alone...  
I'm a long way from home  
And I feel so all alone...
