

# Krokus, Mad World

They say that money rules the world  
Please excuse me but I must agree  
It has the power, makes the planet turn  
It could set your life free, yeah

I hate to give you the bad news  
The clock is tickin' away  
And she's your own mother nature  
Pays at the end of the day!

Can you accept that your time is up?  
We've gotta stop it while we can!!!

We're livin' in a mad world  
And that's the bloody truth  
We're livin' in a bad world  
Good luck to me and you

Lost in a dream of virtual reality  
A battle-film and some booze  
Ain't got no time for ecology (what's that?)  
Like we've got nothing to lose, yeah

We all can profit from a healthy planet  
But greed and power seem to rule!!!

Set it free, set it free!  
Forget your nature and she'll forget you  
Take it away boys

Good luck everybody...  
Sleep tight, tonite!
