Verse One: KRS-One

If we can't have trust then you can't hang with us We respond to those who show respect with respect We respond we connect on the same deck same intellect, my man, never shifty, thinks guickly If you can't understand, we boys we boys We could stand on the corner with a hat sellin toys It ain't about your Benz I hope it ain't about mine my man, I be dissin in my freestyle rhyme Gettin G's around the world, I can trust you with my girl my man, we chillin at the jam, what's the plan? I'm not a yes man and none of my friends are yes men or women, I'm drivin, I see my peeps yo get in Where you fit in? True friends are quick to sit in the beginning of all trouble, and when your bankroll doubles Fred Flintstone and Barney Rubble Still I got my own space like Hubble

Verse Two: KRS-One

Cause don't nobody care about us, all they do is doubt us Until we blow the spot then they all wanna crowd us and wanna shout us, but you my man from way back I just gots to say that, actin large I don't play that But I can't say that, where I play at isn't fast-paced A friend can acquire the taste to become two-faced And that's a disgrace there ain't nothing you can say to us When the kid you grew up with betrays your trust When we used to ride the bus we had trust Now we cash checks and drive Lex, and can't show respect to one of us Yo the heads I hang with ain't tryin to just get what they can get, sit guickly backstabbin the click I roll thick, but only some are friends really down to the end, my right hand men and women Mutual support, from the beginning Been in, exactly what I've been in
