

Krystal Harris, My Religion

There's nothing wrong
With tradition
But tell me where it says
Not to follow our hearts
That's why so many
Of us are so confused
And will never live
Up to your rules

(CHORUS:)
My religion doesn't hate
It'll never turn you away
It always understands
My religion won't condemn
Always lends a healing hand
It's love
My religion's love

All it takes is to be willing
To sacrifice for
Someone who is in need
Then we can begin
To heal again
And love will
Sweep the land

(Repeat chorus)

My religion
My religion
Love
My, my religion
My religion
It's love

That's why so many
Of us are so confused
And will never live
Up to your rules

(Repeat chorus twice)

My religion's love
