

Kubb, I Don't Mind

I don't mind
You don't even wanna know my name
That's just fine
You don't even wanna know my name
You (evolve) scenes of you and me in bed
Your legs wrapped around my head
You don't even wanna know my name

Chorus
I don't mind, if U don't mind
I'll do whatever you have in mind.
You and me (we're in this game)
and you don't even wanna know my name.

I don't mind
If your hungry for a bit of strange
That's alright
If your looking for a little change
Can I be (bold) and turn you around instead
I wanna see the back of your head
I don't even wanna know your name

Chorus

Bridge of song
Chorus (repeat)

I don't mind!
