

# Kumbia Kings, I Need Your Love

Yo yo yo yo yo  
Uh huh  
Yeah  
C'mon, c'mon

Millennium  
Millennium  
Here we go yo  
Here we go yo  
I need you  
Here we go yo  
I need you  
Here we go yo

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

Wanna picture you and I  
together in this paradise  
It don't matter really where we go  
or where we at I'm feeling right  
Cause I remember you were down with me  
To be with me and care for me  
You could get with me across the world  
And stay this way sencerity

Cause that when it comes to you  
I do anything  
Anytime or the place  
You know that I'll be there  
Should have thought before  
you came and stepped to me  
Now listen close  
This is what I mean

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I wish I could just let you know  
that I want to keep it real  
We could keep it on the downlow  
Let me know whatever you feel  
You know I want you for my lady  
And baby you drive me wild  
You drive me crazy  
Just stay with me a little while

Oh I know that you've been hurt  
And even played before  
Don't you worry 'bout a thing

Cause I won't do you wrong  
Just understand babe  
You got me babe  
Would you be my lady

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I like to make love to you  
From the down, romantic tone  
Step into my room girl  
And if you didn't know  
Now you know  
Call it, call it what you want  
Spend the rest of my life with you  
Untill the day that I'm gone

Bring that flavor favorite  
Gone go 'head so stop that praying  
I'll be the late guy here  
to take you girl from a that hate  
So baby when you're praying  
I'll be the big thing  
Taste it  
So won't you gone giddy up  
You know girl I'll be the next to you baby

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I need your love and touch tonight  
To feel your body next to mine  
Kiss you all from head to toe  
I need you, I need you

I need your love and touch tonight  
To feel your body next to mine
