

Kyle Riabko, Estrogen

V1

Hey mister, where are you going?
The night has just begun and the ladies want more
He says I'm tired of this joking
The girls make sad so I'm leaving that fad alone.

Pre-Chorus

He's givin' up women (You' on 2X)
Chicks
Females
And sex
Soon
He'll see
That solitaire will make him want to scream

Chorus

I want some Estrogen
I need some
Gimme gimme your
I need your

V2

Are you sure everything's workin'?
You're gone from the girls, but it looks like you need them back
You say that everything's perfect
But the look on your face says you want another taste
Of a lady on your lap
