

# Kylie Minogue, Absolutely Anything and Anything

Absolutely anything and anything at all  
Streakin' through the light, Jupiter in sight  
Absolutely anything

You could do anything, whatever you wanna do  
What would you do? And who would you do it to?  
If you could be whoever you wanna be?  
Am I crazy? Or did this just happen to me?

Absolutely anything and anything at all  
Streakin' through the light, Jupiter in sight  
This star is intergalactic  
Absolutely anything and anything at all  
Shinin' like a star, reignin' like a czar  
Oh absolutely anything

See now I got everything, whatever you want you get  
When I write a song, everyone sings along  
But I can hear the thunder comin', raining down  
Havin' it all was a bit of a ball but the truth keeps rollin' around

I think I'm goin' cuckoo  
Tell me that I'm wrong  
Hittin' me like voodoo  
Yeah I'm gonna play along  
I think I got the power, what you gonna do?  
I'll make it happy hour, it's on you  
So come on people  
Get the world hot  
So come on people  
Give me what you got  
I'm gonna get you jumpin'  
Jumpin' on the spot  
With a little somethin' somethin'  
Somethin' that you got  
So come on people

Absolutely anything and anything at all  
Streakin' through the light, Jupiter in sight  
This star is intergalactic  
Absolutely anything and anything at all  
I can see the future but I never kiss and tell  
Shining in the starlight, all I wanna do is sing  
Absolutely anything  
Absolutely anything  
Absolutely anything  
Absolutely anything and anything at all  
Streakin' through the light, Jupiter in sight  
This star is intergalactic  
Absolutely anything and anything at all  
I can see the future but I never kiss and tell  
Shining in the starlight, all I wanna do is sing  
Absolutely anything
