

# Kylie Minogue, After Dark

That's right,  
Let me give you something for your appetite,  
You know I wanna be with you all day and night,  
Boy I'll send you spinning like a satellite,  
Hey you,  
I can see you like it when you get the view,  
Well come on over here I'll show it all for you,  
We'll go somewhere together make a move or two,  
No sign of light except the glowing stars,  
Don't delay me drive me crazy,  
Oh baby, I'm ready,  
So what you waiting for,  
Feel sexy, your body,  
Let's take  
it to the floor

After dark,  
all night long,  
Dusk till dawn,  
I wanna make some honey

Tempting,  
everything about you is so tempting,  
You make me lose my will to do the shy thing,  
Wanted,  
your name is on my poster and you're wanted,  
Don't break my heart don't leave me disappointed,  
No-one around except the sound of us,  
Don't delay me drive me crazy,  
Oh baby, I'm ready,  
So what you waiting for,  
Feel sexy, your body,  
Let's take it to the floor

After dark,  
all night long,  
Dusk till dawn,  
I wanna make some honey

Oh baby, I'm ready,  
I've got just what you want,  
Feel sexy, your body, You  
really turn me on

After dark,  
all night long,  
Dusk till dawn,  
I wanna make some honey

Give me that touch,  
give me the night,  
Give me that urge that makes me feel right,  
You and me here,  
you and me now,  
All the way,  
Give me that twist,  
give me that rush,  
Give me the dream I care for so much,  
You and me here,  
you and me now,  
Don't delay me drive me crazy.  
crazy.
