

# Kylie Minogue, Automatic Love

Would you please forgive me I feel a stranger here  
it seems I've lost all my memories and all of my tears

[Chorus:]

I know why I'm so crazy I don't care  
'cause it's you that makes me so beware  
you put me on automatic love, there's no return  
I'm on automatic love nothing can stop me  
I'm on automatic love come on and turn it on  
automatic, automatic

I don't feel you enter in my man menu  
but every time I touch the key the screen is showing you

[Chorus:]

The moon on you will come to call  
it's so automatic  
so beware, you put me on automatic love  
automatic love

nothing can stop me, I'm on automatic love  
Come on and turn it on  
Come on, turn it on
