

Kylie Minogue, Count The Days

[Chorus:]

Count the days till we're together

(1-2-3)

Though it feels like forever

(We will be)

Holding on to each other

(You and Me)

You will be my only lover

(Eternally)

You made my day

When a dozen red roses came my way

Warmed up my heart

'Cos I know you're thinking of me from afar

Press a petal to my lips

Feels like your kiss

Don't you know that's what I miss

To smell the sweet perfume

Reminds me so much of you

There's nothing else that I can do

[Chorus]

It's been so long

I know our two hearts are strong

There's not a moment

That my spirit isn't in it don't you know it

Try to occupy my time

Remember you're mine

Talking to you on the line

Try to get used to this

But long distance loving is

Leaving me to dream of your kiss

[Chorus 2x]

When I'm feeling scared and lonely

Wonder if I'm still your only

Tell me now

Soft and slowly

It's gonna be alright

You'll be by my side

Press a petal to my lips

Feels like your kiss

Don't you know that's what I miss

To smell the sweet perfume

Reminds me so much of you

There's nothing else that I can do

[Chorus]

[Repeat and fade]
