

Kylie Minogue, Free

It's Night Time,
We're driving,
Lights go by and make stars in my eyes.

It's cold out and it's warm in,
when I have you by my side.

And I know this is special,
when the breeze is on my face.

For now and for always I'll dream about this time and place

[Chorus:]
This is the feeling I want for always,
This is the feeling I want for always,
Free, so free.

It's special,
the feeling,
it's really nice,
so nice and new.

Slip into, believe it,
We'll do whatever we choose.

And I know this is magic,
on the road to "God knows where",

For now and forever I'll dream about this time we share

[Chorus]

Free, so free

This is the feeling I want for always,
This is the feeling I want for always,
Oh I,

[Chorus]

Free, so free.
Free, so free.
Free, so free.
