

# Kylie Minogue, I'm Over Dreaming Over You

You're stringing me along  
With just a hope to carry on  
That hurts me  
And you know I've tried  
To keep my tears held back inside

But why am I waiting for you  
When you treat me like you do

You can't keep me hanging on  
Now the magic's gone  
I'm over dreaming over you  
It's much too late  
My love just can't wait  
I'm over dreaming over you

I should have seen it from the start  
There was no room inside your heart  
And I'd be better on my own  
Than have a heart without a home

My waiting days are through  
I'll be no more a fool for you

You can't keep me hanging on  
Now the magic's gone  
I'm over dreaming over you  
It's much too late  
My love just can't wait  
I'm over dreaming over you

You can't keep me hanging on  
Now the magic's gone  
I'm over dreaming over you  
It's much too late  
My love just can't wait  
I'm over dreaming over you

But why am I waiting for you  
When you treat me like you do

You can't keep me hanging on  
Now the magic's gone  
I'm over dreaming over you  
It's much too late  
My love just can't wait  
I'm over dreaming over you
