

Kylie Minogue, No Better Love

Wander in your wilderness
Close enough, take a breath
Closer still, touch your skin
Open up (open up)
Let me in.

Don't you know you're
Taking me down
You're making me high
My life's turned around
Now save me tonight

No Better Love
Than when we make it
To get up and taste it
Intoxication, this elation
Oooh... there's no better love

Follow up my fantasies
So nice, meant to be
Nicer still, what's to come
Take a ride (take a ride)
Come undone

Don't you know you're
Taking me down
You're making me high
My life's turned around
Now save me tonight

No Better Love
Than when we make it
To get up and taste it
Intoxication, this elation
Oooh... there's no better love

No Better Love
Than when we make it
To get up and taste it
Intoxication, this elation
Oooh... there's no better love

Don't you know you're
Taking me down
You're making me high
My life's turned around
Now save me tonight

Don't you know you're...

No Better Love
Than when we make it
To get up and taste it
Intoxication, this elation
Oooh... there's no better love

No Better Love

No Better Love
Than when we make it
To get up and taste it
Intoxication, this elation
Oooh... there's no better love

No Better Love (to fade)
