

Kylie Minogue, Stay This Way

You take me to the top,
I wonder when the drop will come,
You make me feel light,
I wonder when the nights will fall,
You make me feel at peace,
I wonder when the hearse will come,
You make me feel wise,
I wonder when the time will call.

How can it stay this way?
After the sun there's always rain.
How can it stay this way?
After the sun there's always rain.

You take me to the top,
I wonder when the drop will come,
You make me feel high
I wonder when the sky will fall,
You make me feel pain,
I wonder when the hearse will come,
You make me feel like,
I wonder when the time will call.

How can it stay this way?
After the sun there's always rain.
How can it stay this way?
After the sun there's always rain.

I hope that we can stay this way,
After the sun, I don't want rain.
